Boxes of Paint

Jonathan put the paint into boxes. There are 10 tins of paint in each box.

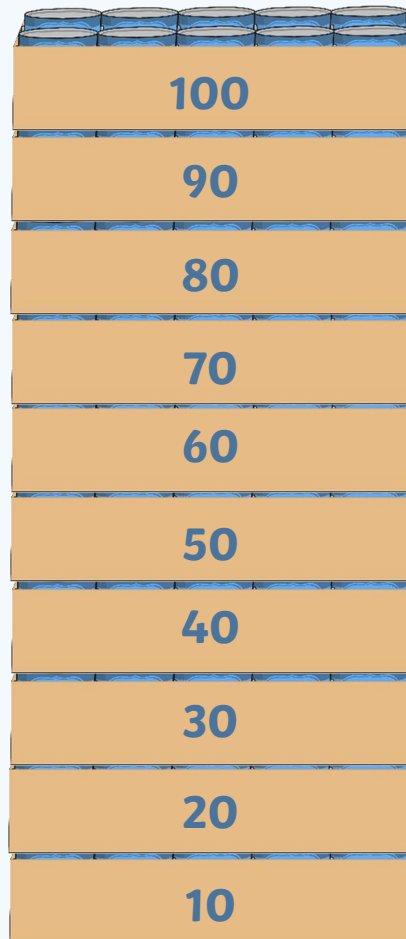

Boxes of Paint

Can you help Jonathan to count the paint?

Boxes of Paint

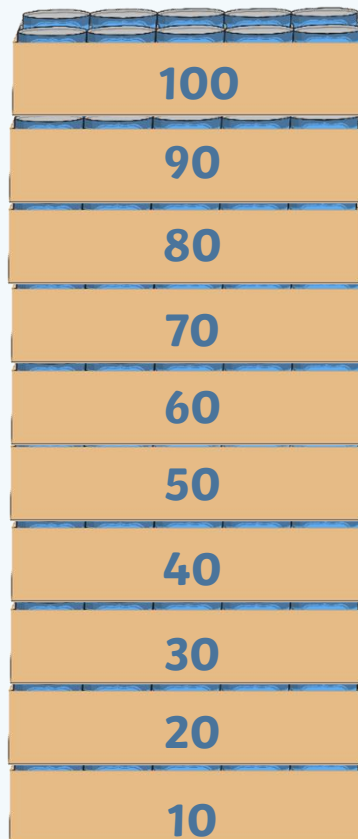

Let's count again.

Boxes of Paint

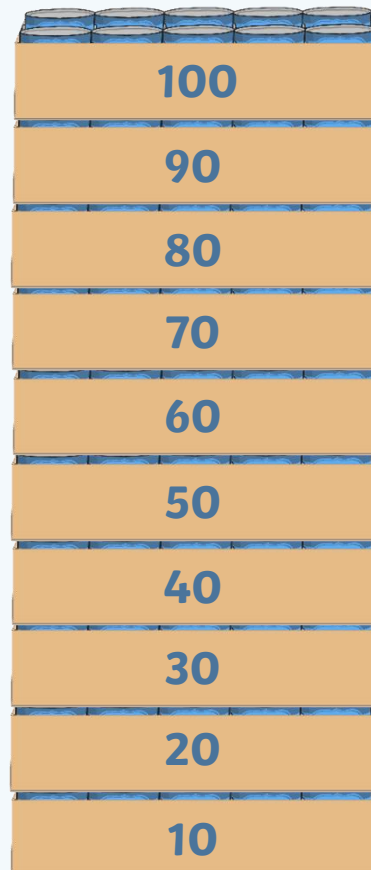

Jonathan carries the boxes into the shop.

How many are left?

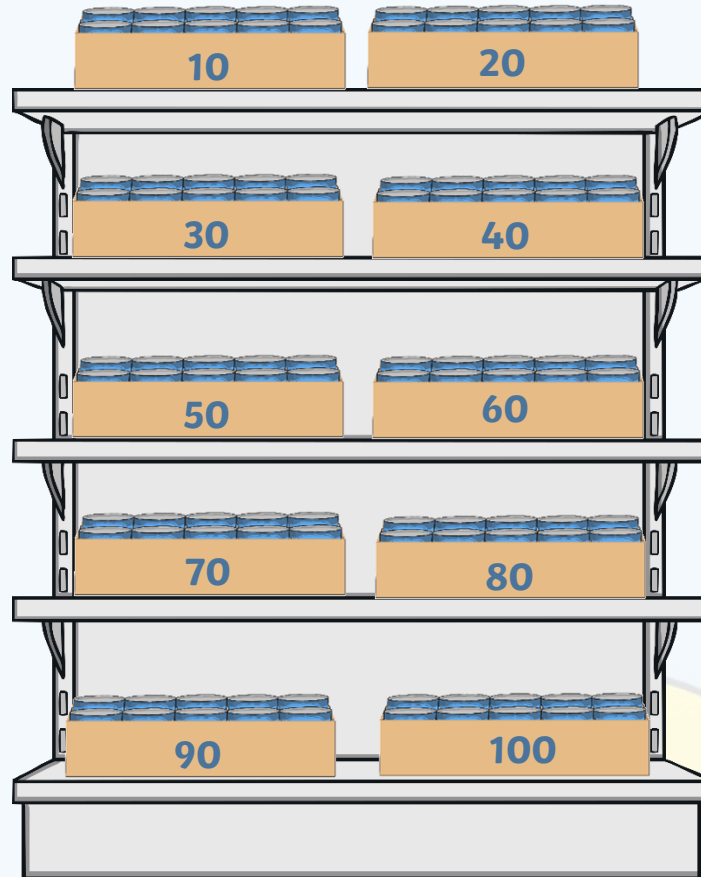

Boxes of Paint

Let's count again.

Storage Shelves

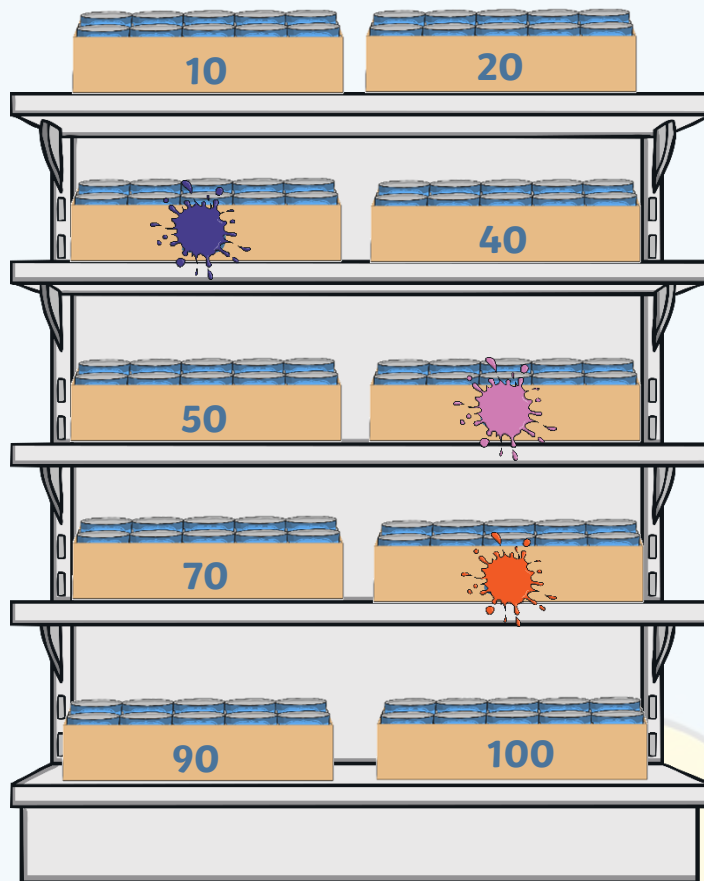

Jonathan lines the boxes up on a shelf. He labels them so he knows how many tins of paint he has.

Can you finish the labelling for him?

Spilt Paint!

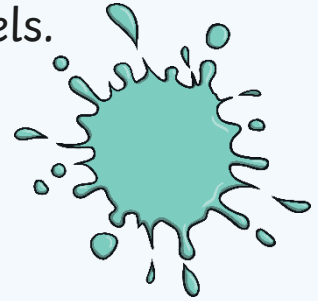

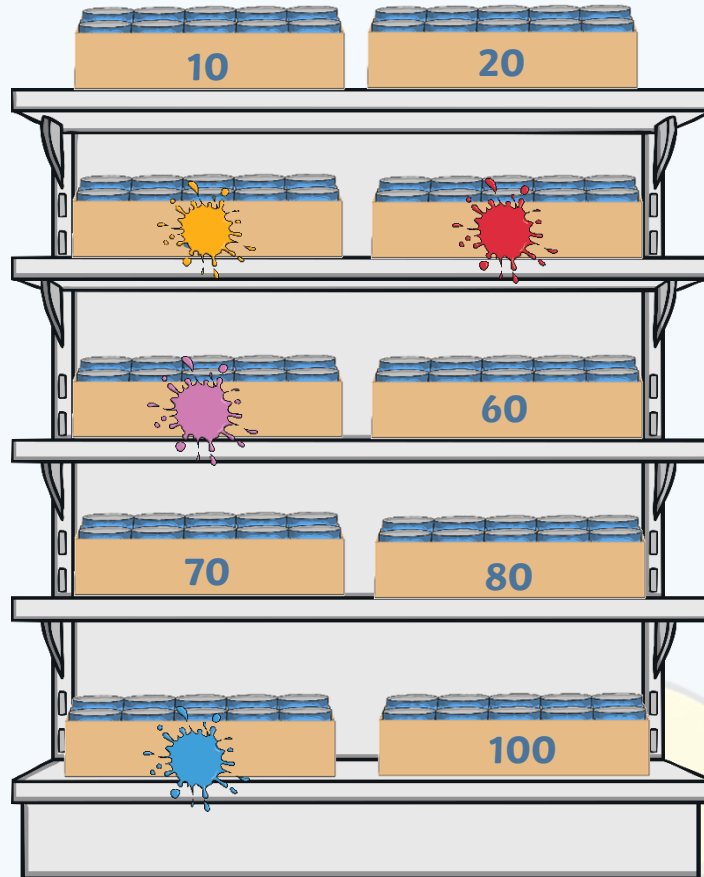

Oh no! Spilt paint! Jonathan can't see his labels.

What are the missing numbers?

Spilt Paint!

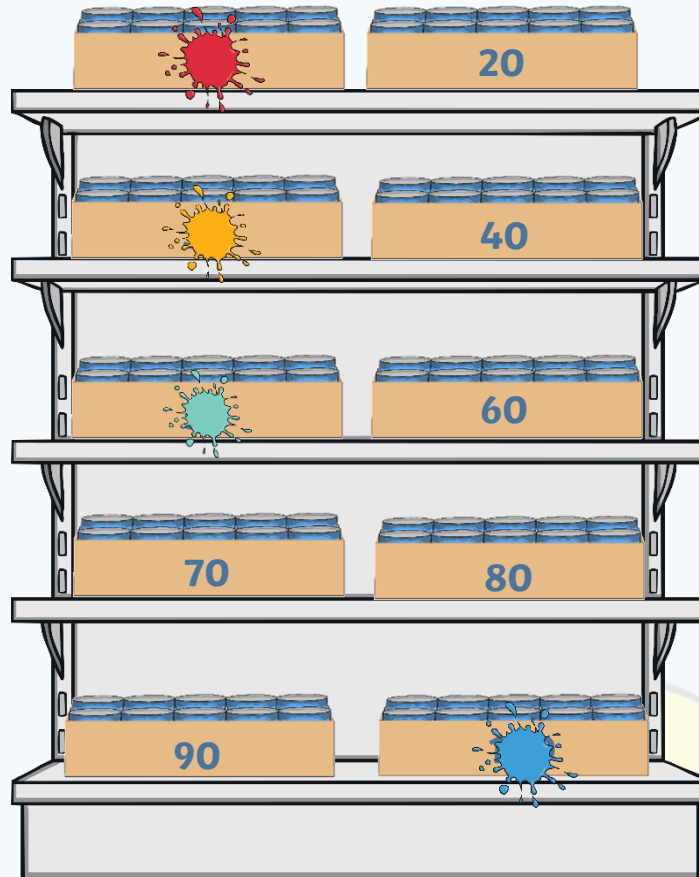

Oh no! Spilt paint! Jonathan can't see his labels.

What are the missing numbers?

Spilt Paint!

Oh no! Spilt paint! Jonathan can't see his labels.

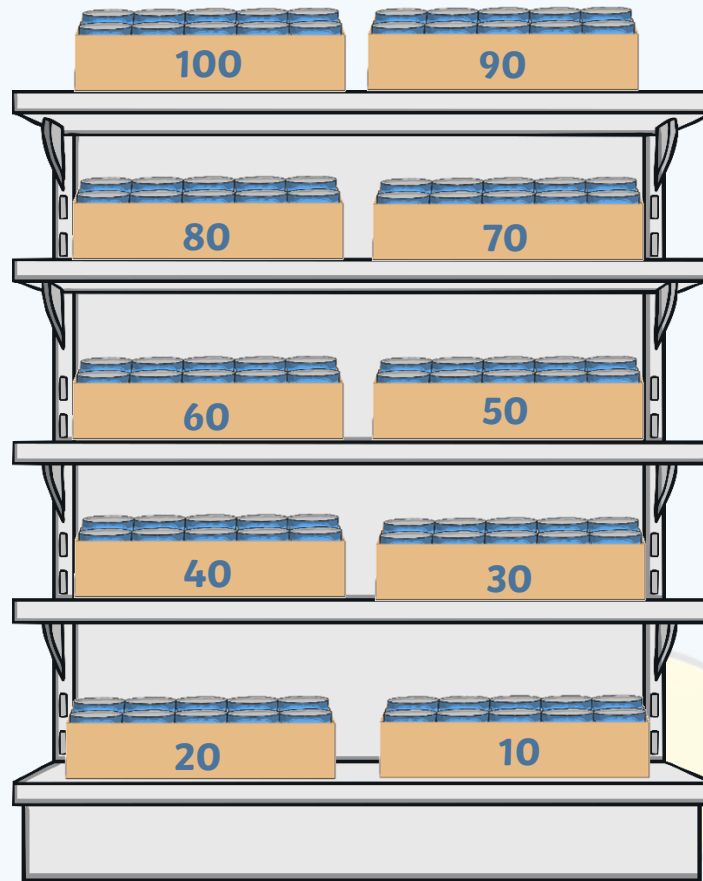

What are the missing numbers?

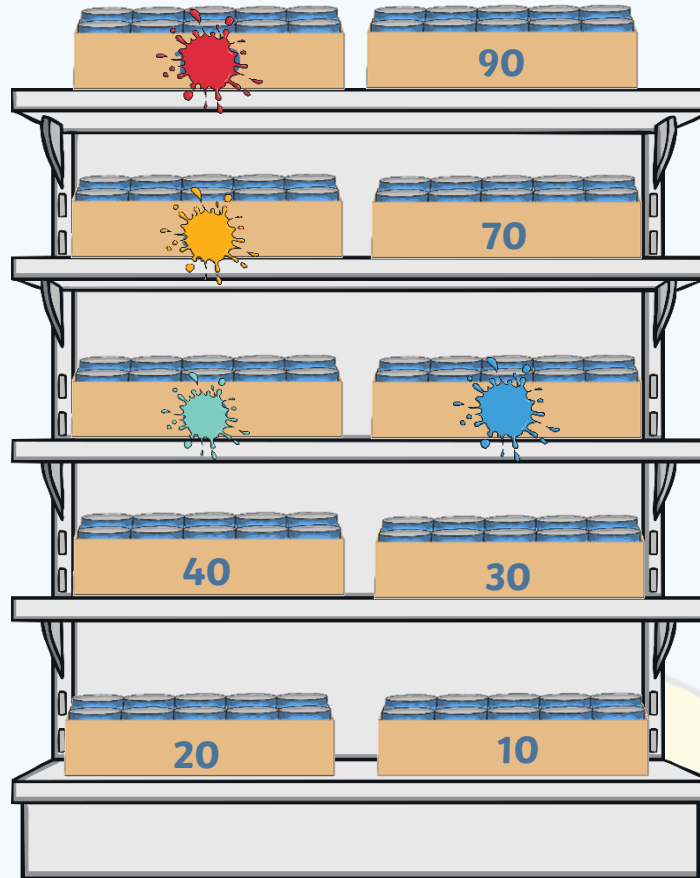

Arranging Boxes

Jonathan arranges his boxes like this.

More Spilt Paint!

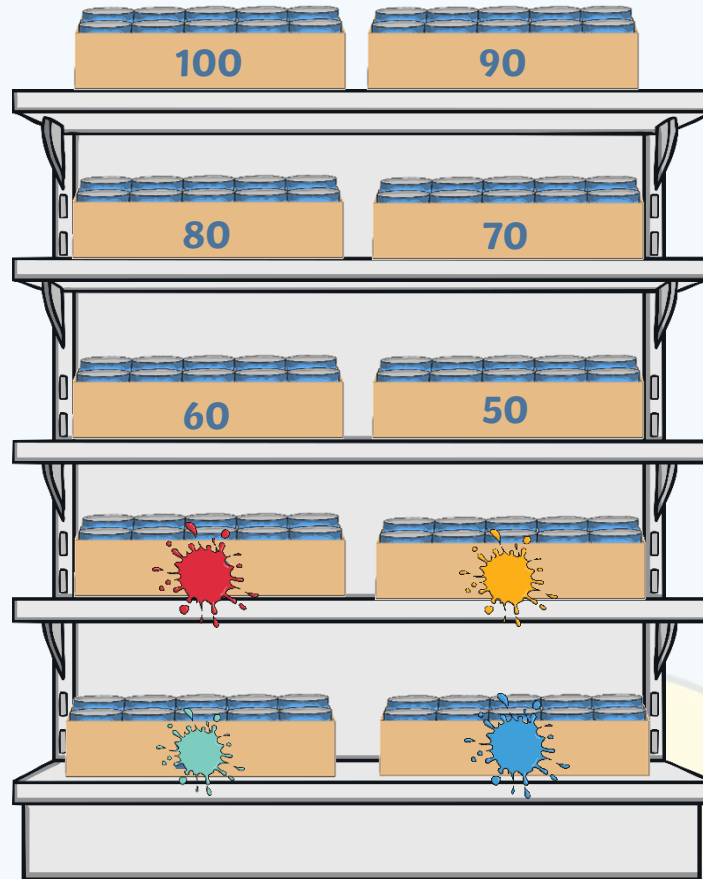

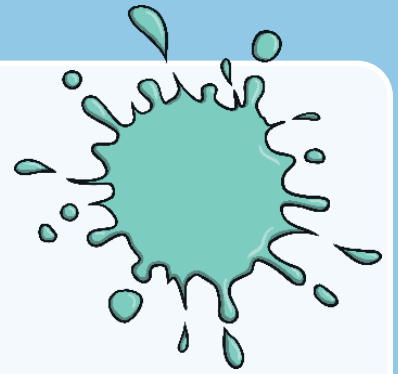

He spills paint again!

What are the missing numbers?

More Spilt Paint!

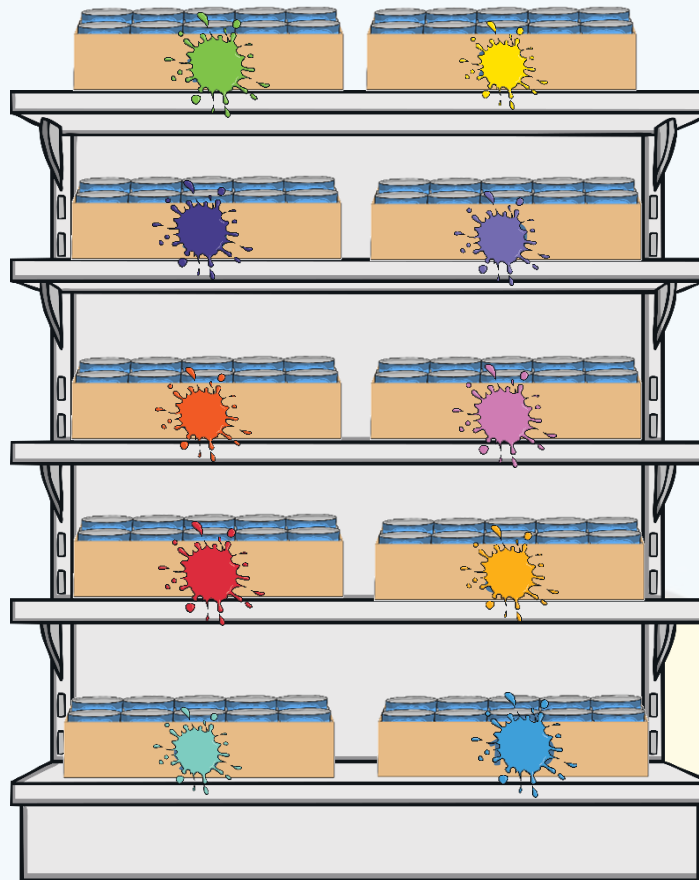

He spills paint again!

What are the missing numbers?

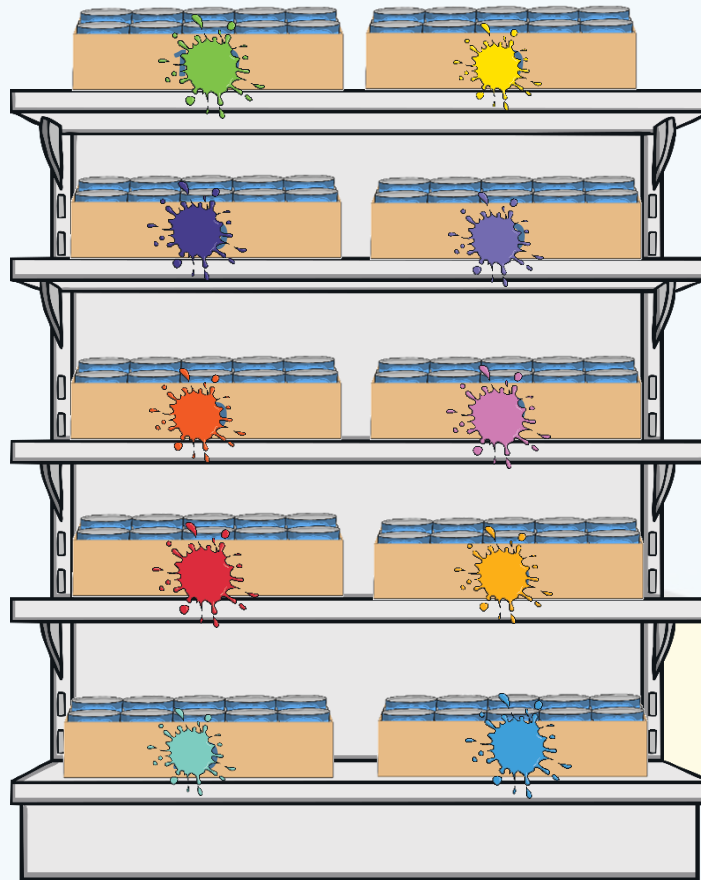

More Spilt Paint!

Paint has covered all the labels. Can you help Jonathan count the missing numbers?

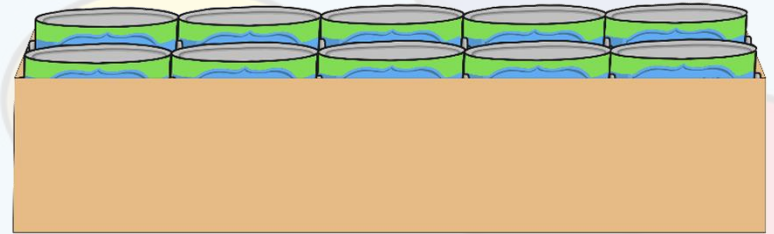

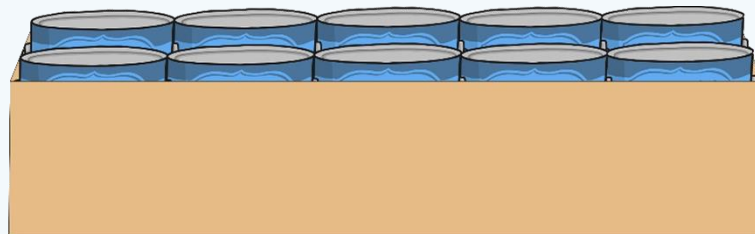

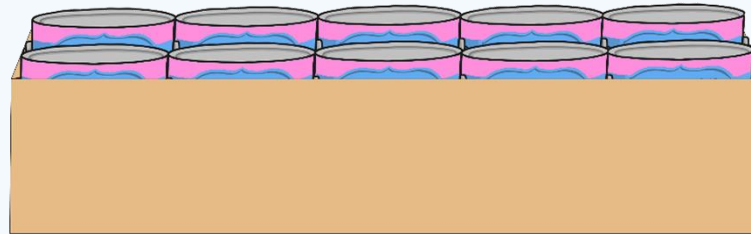

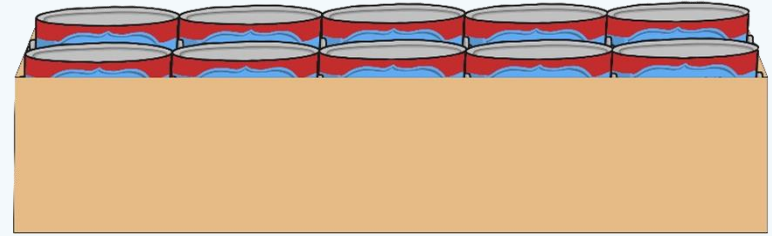

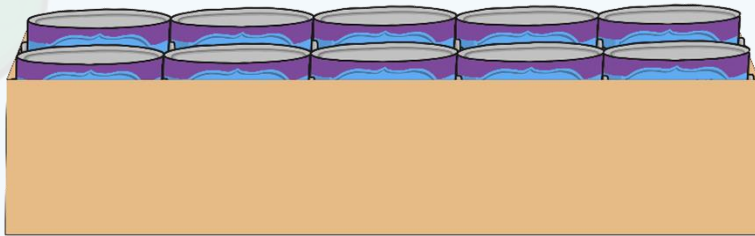

More Spilt Paint!

Paint has covered all the labels. Can you help Jonathan count the missing numbers in the opposite order?

5 Boxes

How many tins of paint?

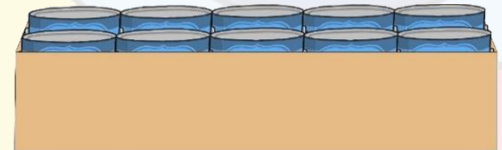

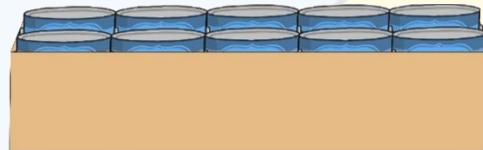

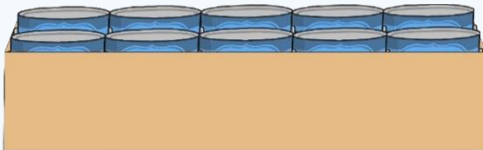

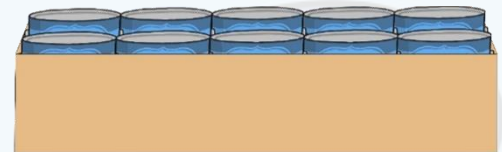

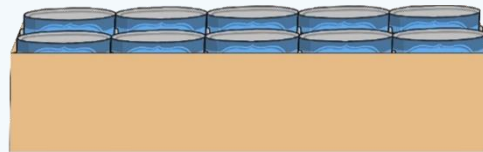

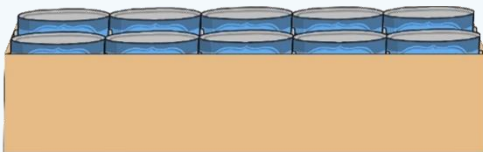

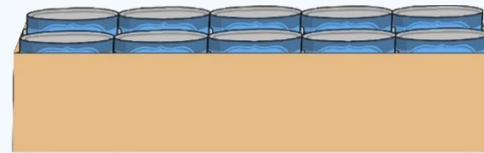

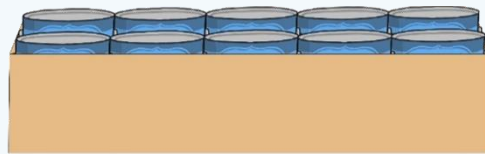

30 Tins of Paint

How many boxes?

Can You Ask a Question?

Look at the image of the boxes. Can you ask a question about it?

How Much Paint?

Jonathan has an even number of boxes of paint.

All the boxes are full.

He has more than 30 and less than 60 tins of paint.

How many boxes of paint does he have?

Can you make up a puzzle?
