There were 22 dinosaurs and 10 **more** came how many

dinosaurs were there **altogether**?

2. There were 86 dinosaur eggs then 6 were **taken**. How many were **left**?

3. There are 40 T – Rex's **plus**  16 stegosaurus how many **altogether** ?

4. There were 30 dinosaurs in the water and 4 in the sand. What is the **total** number of dinosaurs?

5. There were 12 dinosaurs and 10 went home how many dinosaurs **left**?

6. 7 red dinosaurs, 6 blue dinosaurs and 10 yellow dinosaurs how many **altogether**?

Can you make up a number story?

$$12 + 5 =$$
