

Once upon a time there was a woman who had ten silver coins. These coins were very important to her so she made sure to keep them safe.

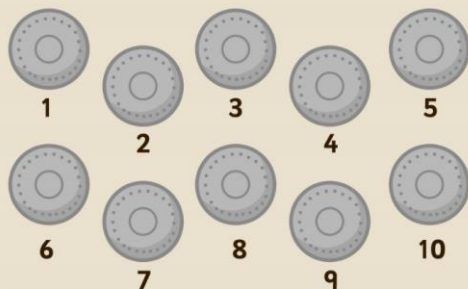

One day, she was counting her coins when she realised one was missing.

The woman lit her lamp and began to search her house for the missing coin. She knew it must be there somewhere.

Sometimes, the woman would count all her coins just to make sure they were still all there.

The woman went to her bedroom and began to sweep up as it was dusty. Under her bed was the missing coin!

The woman was so happy that she invited her friends and neighbours round to celebrate finding the missing coin.
