

Space Race Tally Charts and Bar Charts

twinkl

Tally charts are a great way to collect and present information. They are easy to read and record. They also make it simple to find a total.

In a tally, you just put a line to show one - |

If you have already got four - |||| you draw a line diagonally across for number 5 - 

 | = 21

This chart shows the countries who have sent people into space.

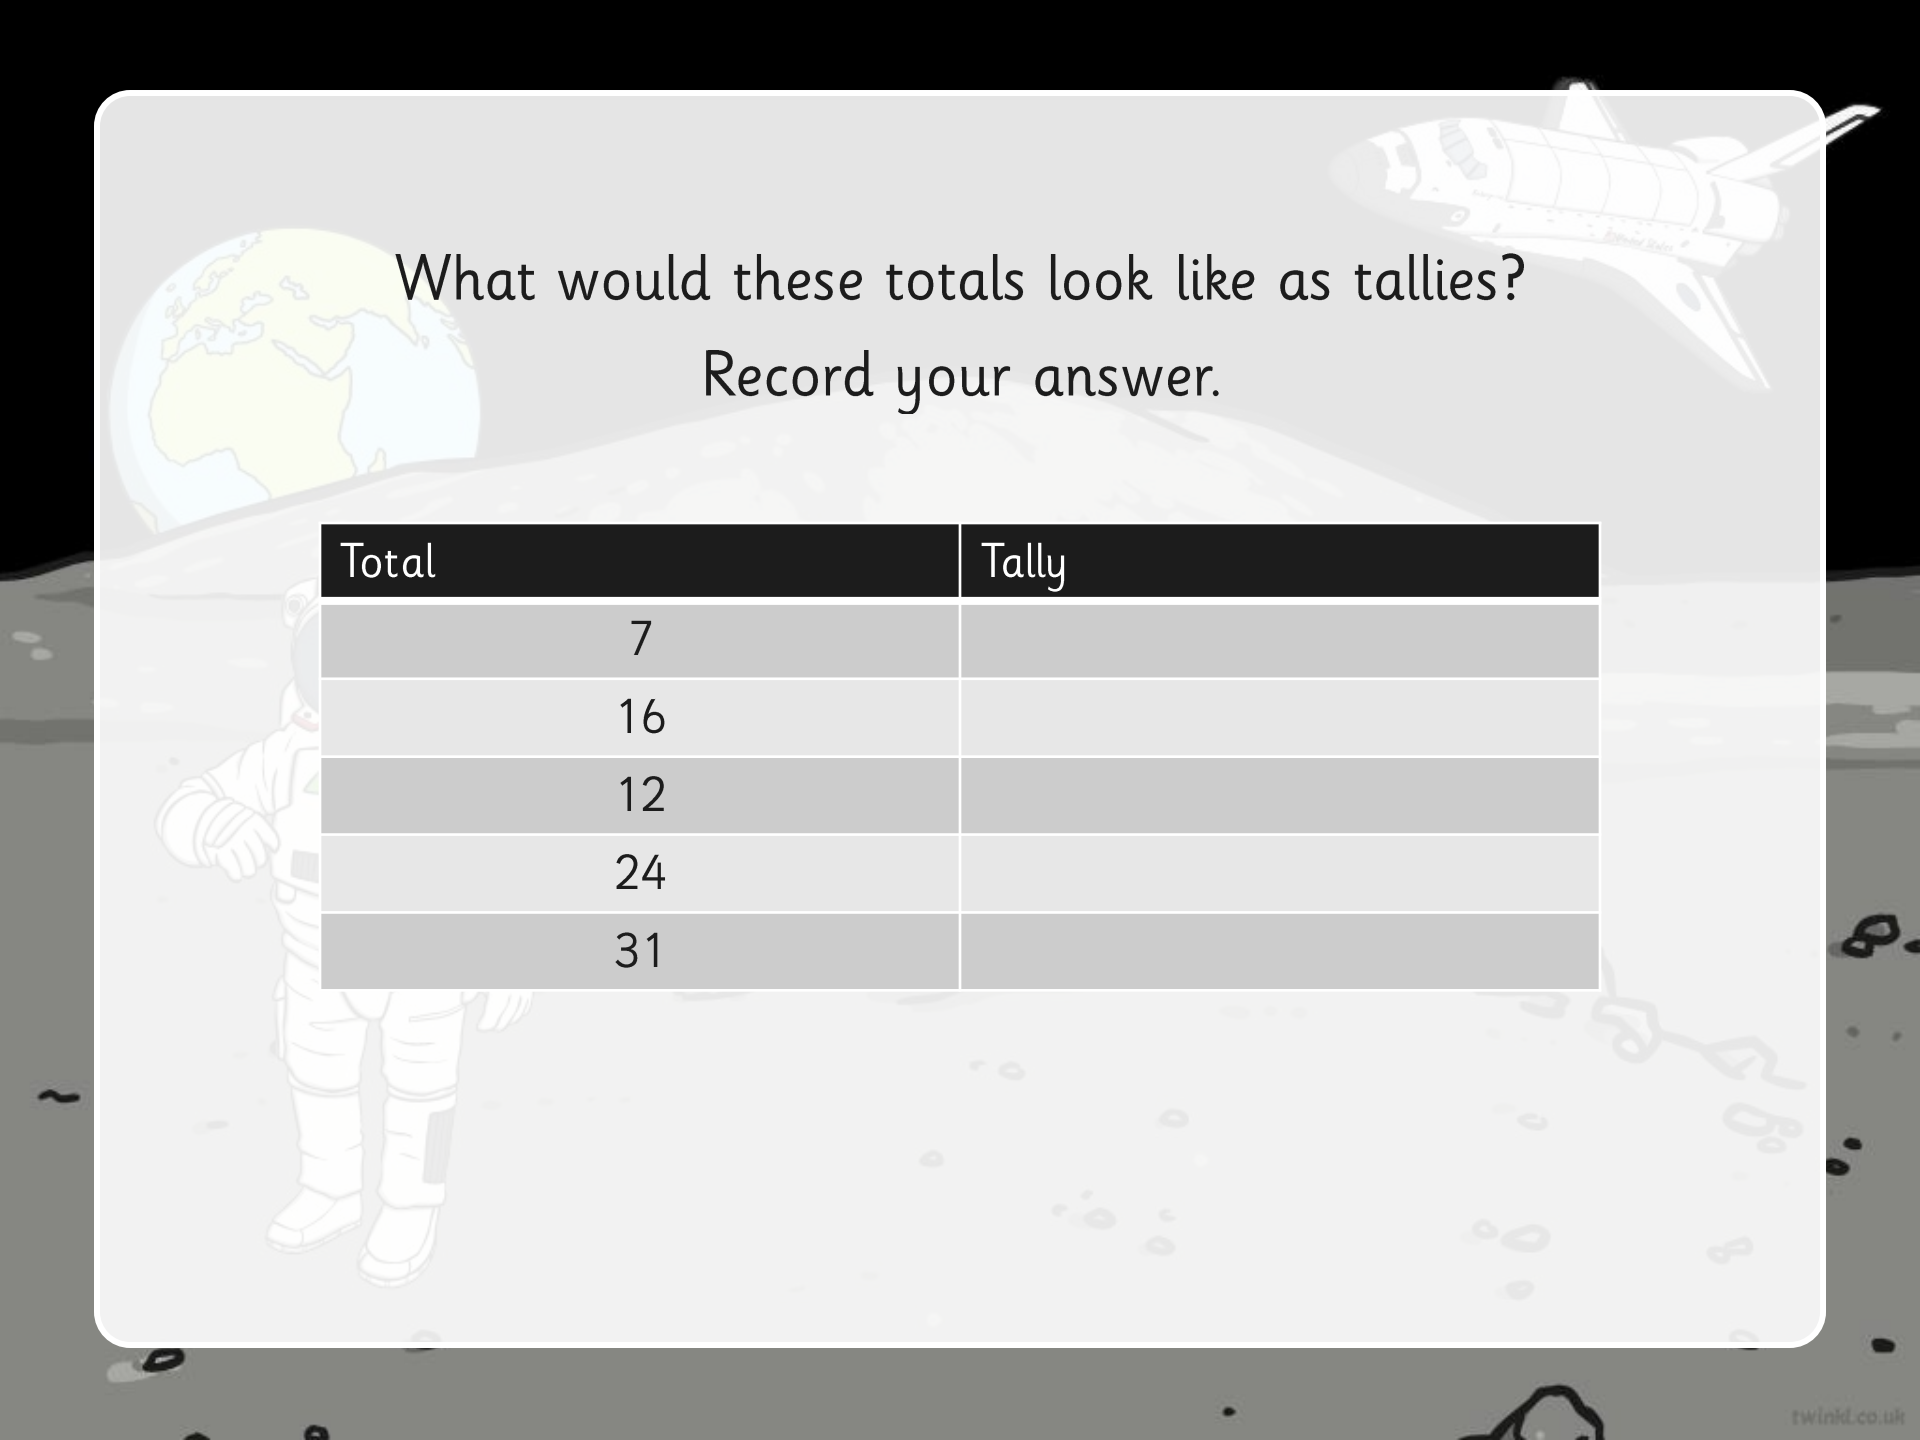

Country	Tally	Total
Germany	### ### I	
United Kingdom	II	
China	### ###	
Italy	### II	
Canada	### IIII	

What would the totals be?

Here are the totals!

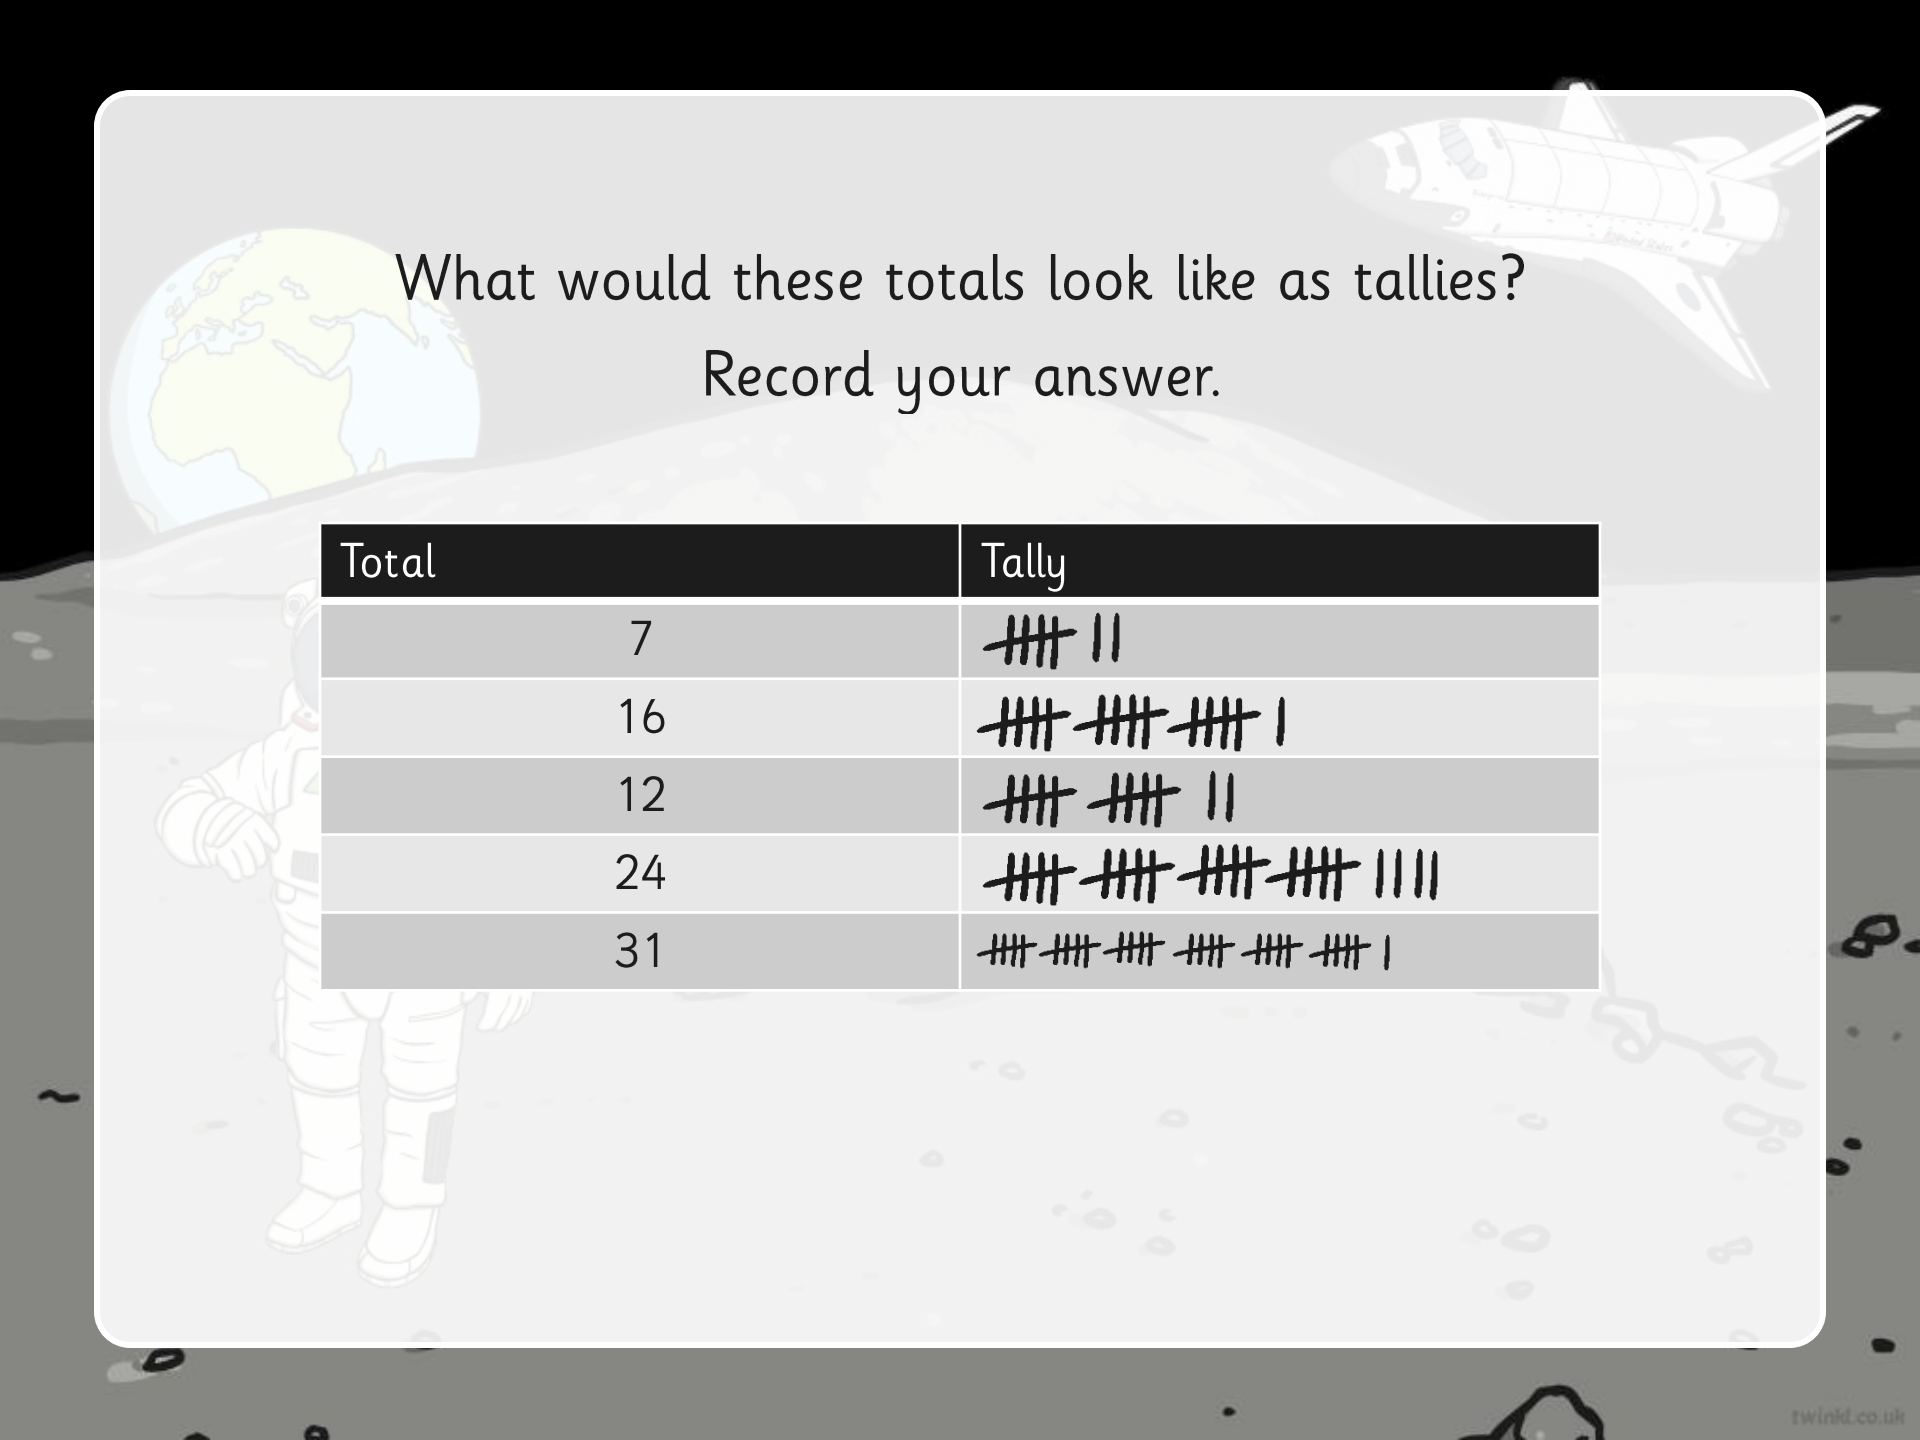

Country	Tally	Total
Germany	### ### I	11
United Kingdom	II	2
China	### ###	10
Italy	### II	7
Canada	### IIII	9

What would these totals look like as tallies?

Record your answer.

Total	Tally
7	
16	
12	
24	
31	

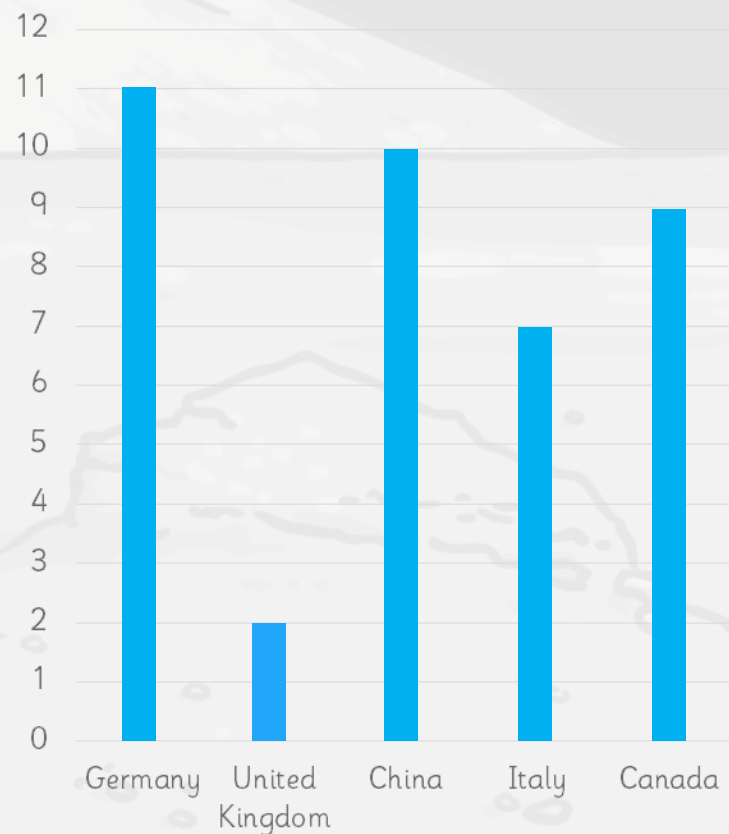

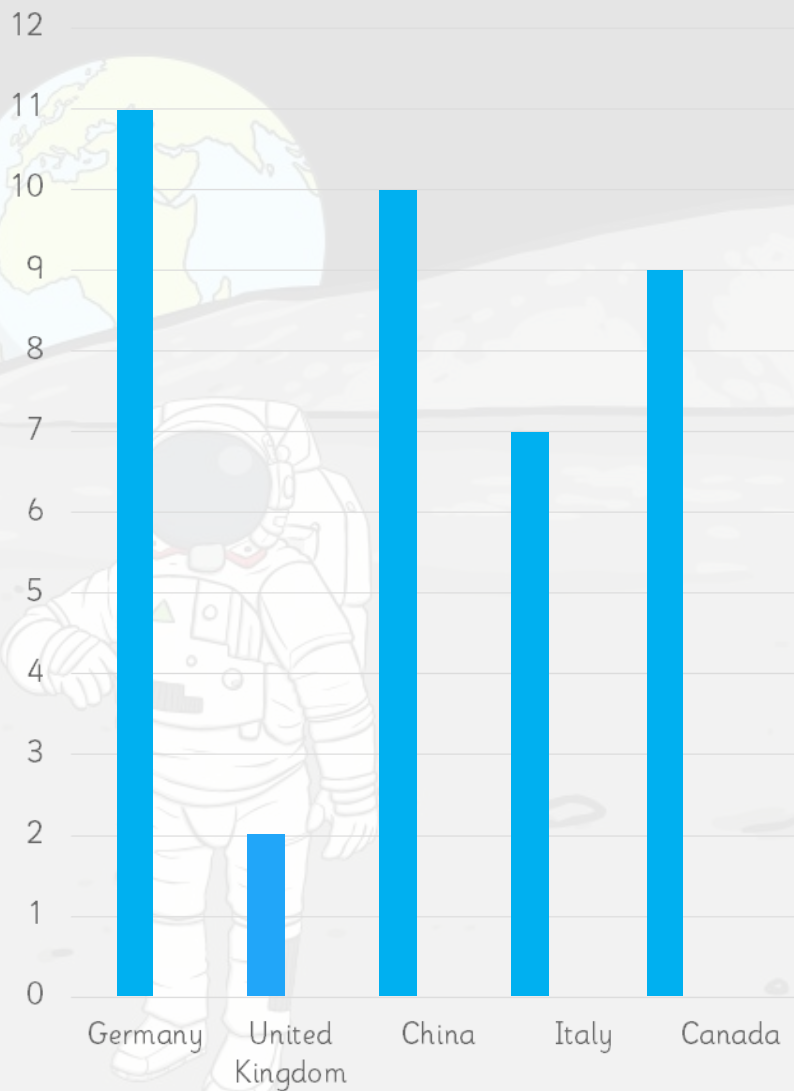

What would these totals look like as tallies?
Record your answer.

Total	Tally
7	
16	
12	
24	
31	

Once the table is complete, the data can be plotted on a graph, for example a bar chart.

Country	Tally	Total
Germany	I	11
United Kingdom		2
China		10
Italy		7
Canada		9
