

Think about counting in 2's 5's and 10's to solve these problems

Veruca Salt had 5 hamster cages in her bedroom. Each cage had 4 baby hamsters inside. How many hamsters did she have altogether?

Violet Beauregarde bought 9 packets of gum. Each packet had 10 sticks of gum inside. How many sticks of gum did she have altogether?

Mike Teavee collected 2p coins. He had 12 in his wallet. How much money is that altogether?

Augustus Gloop's mother bought 6 packets of his favourite sausage. Each packet contained 5 sausages. How many sausages is that altogether?

Charlie Bucket loved Roald Dahl books. He had a set of his Dad's old books. Each book had 10 pages. He had 7 books. How many pages is that altogether?
