

Maths

Impact

Our curriculum impact empowers our pupils to be aware of future careers, spark interest in continued learning and fulfil their potential to be the best that they can be.

The children at Chuter Ede fulfil their potential by demonstrating the following:

- That they have mastered a concept or skill by being able to describe and represent it in a variety of ways.
- That they can use mathematical language and vocabulary to confidently explain their ideas.
- That they are fluent in their knowledge and recall of number facts and procedures (including times tables).
- That they are confident learners, can make connections between different areas of maths and can independently apply their knowledge and understanding to new and unfamiliar problems.
- That they can make connections and move between different contexts.
- That they take pride in their work and their achievements in maths.

"Valuing everyone and aiming for our best"
