

PSHE/RHE

Intent

At Chuter Ede, we are healthy, independent and responsible members of society and the wider world.

Our intent is for children to:

- ...learn that they are a valuable member of our community
- ...learn right from wrong
- ...learn about causes and consequences, and taking responsibility for their actions
- ...learn about self-care, including nutrition, being healthy (including teeth), limiting their amount of screen time and safe and trusting relationships.
- ...learn about their responsibility to protect the environment
- ...develop emotional literacy to enable them to make informed choices regarding their wellbeing
- ...learn the four fundamental British Values:
 - o The role of democracy and their rights
 - o The Rule of Law and how they allow them to contribute positively to society.
 - o How everyone has Individual Liberty which allows us to discover who we are and how we can develop self-respect and emotional maturity
 - o Develop empathy through Mutual Respect and Tolerance for those with Different Faiths and Beliefs
- ...develop confidence to express themselves and their emotions
- ...feel confident in expressing their views and show respect to those who have different views in a conversation
- ...develop emotional literacy
- ...feel confident to say when they feel something is wrong
- ...not be bystanders to bullying behaviour
- ...have the confidence to speak out when they feel an injustice
- ...feel represented in their school community

"Valuing everyone and aiming for our best"
