

MFL

Intent

At Chuter Ede, we are linguists

Our intent is for children to:

- ... develop their knowledge and skills through the spoken language, reading, writing and listening (see skills progression sheet).
- ...understand that intercultural understanding is a key part of learning a different language (see skills progression sheet for links).
- ...know that key vocabulary and grammar links are important (see skills progression sheet).
- ...make numerous cross curricular links. For example, there are links to music through the Year 4 work linked to Carnival of the Animals.
- ...appreciate stories, songs, poems and rhymes in the language.
- ...develop their confidence to use and apply different vocabulary and grammar.
- ...be able to think critically about their own and other's pieces.
- ...encourage the children to work together through strategies like the use of dialogue
- ...have lessons delivered in a manner which encourages them to experiment with vocabulary, explore subject matter and deepen their understanding.
- ...learn a foreign language will help to develop communication skills.
- ...be able to learn about life in a different country and a different culture.
- ...have time for reflection and revisiting.
- ...use their French book from Years 3 to 6 to enable them to see their own improvement and to empower them to be confident to make mistakes.

"Valuing everyone and aiming for our best"
