Impact

Our curriculum impact empowers our pupils to be aware of future careers, spark interest in continued learning and fulfil their potential to be the best that they can be.

- The children at Chuter Ede are able to use technical vocabulary to describe the place in which they live and compare and contrast places around the world different to their own.
- Children have developed a knowledge of the world around them and their impact as human beings and the role they have in ensuring continued protection of our world.
- Children have developed the geographical knowledge and skills to help them explore, navigate and understand the world around them and their place in it.
- Children have developed the vocabulary to express their own opinions, beliefs and ideas about world issues that will affect their immediate future or the lives of others.
- Children will have developed an understanding about how their actions can have an immediate affect and how we can work together to ensure change and make a difference.

"Valuing everyone and aiming for our best"
