

Year 6 cohort 2022-23

- Records show that there are 14 children who did not achieve 25m or Learner Journey 4 (NCC standard)
- Records show that there are 7 children who did not reach water safety standards

	Bal site	Fern site
Did not swim 25m competently or reach NCC Learner Journey 4	11 children	3 children
	14 children (out of 89) in cohort = 16%	
Did not reach water safety expectations (performing safe self-rescue in water based situations)	4 children	3 children
	7 children (out of 89) in cohort = 8%	

**Identified children (from Y4 records) attended top up swimming sessions for 6 weeks (summer term 2023) NB: some children did not come as they never brought their swimming kits or parents requested that they didn't attend.*

**This cohort's swimming entitlement was disrupted in Y3/4 due to covid and lockdown*

**Some top up swimming children identified chose not to attend these sessions*

Year 5 cohort 2022-23

- Records show that there are 17 children who did not achieve 25m or Learner Journey 4 (NCC standard)
- Records show that there are 7 children who did not reach water safety standards

	Bal site	Fern site
Did not swim 25m competently or reach NCC Learner Journey 4	13 children	4 children
	17 children (out of 90) in cohort = 19%	

Did not reach water safety expectations (performing safe self-rescue in water based situations)	3 children	4 children
	7 children (out of 90) in cohort = 8%	

** These children attended top up swimming sessions for 6 weeks (summer term 2023)*

** This cohort's swimming entitlement was disrupted in Y3/4 due to covid and lockdown*

** Some top up swimming children identified chose not to attend these sessions*

Year 4 cohort 2022-23

Children who did not reach the expected standard of swimming 25m distance competently or LJ4 or water safety

	Bal site	Fern site
Did not swim 25m competently or reach LJ4	16 children (out of 52)	11 children (out of 28)
	27 children (out of 80) in cohort = 33 %	
Did not reach water safety expectations (performing safe self-rescue in water based situations)	6 children (out of 52)	9 children (out of 28)
	15 children (out of 80) in cohort = 18 %	

- The Y4 children swam for 18 weeks of Y3 (2021-22) and 18 weeks of Y4 (2022-23)
- They made huge amounts of progress swimming for a whole year in total
- NCC changed the Learner's Journeys to match the National Curriculum swimming objectives which enabled a more realistic assessment

Changes to expectations

- School swimming informed me Sept 22 that the NCC learner's journeys have been adapted. Instead of 10 learner's journeys, with the expectation of children reaching LJ7, there will now be 6 learner's journeys incorporating all of the key swimming skills linked to the NC. There will be more of a focus on children being able to meet the NC objectives of swimming 25m+ confidently in a range of strokes and performing a safe self-rescue. This means that figures will be more accurately linked to the NC objectives as LJ7 expected higher skills and objectives to be met.
