

Spring/Summer 2016

Extra swimmers to achieve 25m

Y4 extra swimming

- 5 year 4 children had extra swimming sessions with Y3 from February to May half term (4 from Balderton site and 1 from Fernwood site)
- 1 of these children moved schools March 2016.
- 3 of these children achieved their 25m.
- There is still 1 child in Y4 who did not achieved their 25m (LD)
This child moved from Chuter Ede in the autumn term 2016.

Y5/6 extra swimming

- Swimming was offered to 9 y5/6 children who did not achieve their 25m during y3/4 swimming.
- 2 of these children's parents (LW and DF) said that they had achieved their 25m out of school.
- 3 of these children/parents (AE, OM, TS) did not want to take up the extra swimming offer.
- 4 of these children accepted the extra swimming offer (RF, EH, LL, EMC) – all achieved their 25m badge at least.
- Records show that two Y6 children left Chuter Ede (July 2016) without achieving their 25m.
- There is one Y5 child who has still not achieved their 25m badge, but will have time in Y6 to address this.

Swimming Review 2015/16

- The changes implemented into the way we swim have shown great improvements on the distances and skills that the children are achieving.
- Y3 children swimming for 45minutes each week from Feb half term to the following Feb half term (when they are in Y4) enables children to gain water confidence, safety and develop their skills further due to the length of time that they are swimming for and it becoming a 'norm' to them.
- With having 1 class swim from Fernwood, this allows us to target older children who have not achieved their 25m. This was very successful this year (see notes about extra swimming).
