

Marvellous Maths!

- Using various objects from either around the house or outside, can you create a repeating pattern?

- Compare and look at shadows made by objects and people and talk about the different shapes and sizes that can be seen.

- Create a pattern using building blocks.

LEARNING OUTSIDE SHAPE WALK

- Go on a shape hunt wither outdoors or indoors.
- Collect objects from inside or outside and sort these into shape groups.

- Number a set of clothes pegs and see if your child is able to put them into the correct order on a washing line outside or one created inside.
- Could your child peg the number cards they have been sent home with onto a washing line in the correct order?
